Important that one person English speaking wait in the Airport for reception of the teams and give informations about the transport and hotels.

good lighting, good help from the responsible people

Tables : new and accessible for wheelchair users

Umpires : good work

Competitions : the organization was better last year, we started very late due to transport in the beginning but the referees loose a lot of time before the start of the team events. Due to not meeting on arrival evening, the team compositions were given to the TD later in the morning (transport problems).
Some players were waiting to start their team events like announced, it was too late to start the second round, no possibility to take the dinner in the hotels later than 10.00 p.m.
Please, respect the final players and don’t take down the table during the games !

Computer : for next year, two computers with two staffs in a special room is absolutely necessary

Organizing Committee : not enough people involved during the tournament, but more problems due to the new place

Conclusion : **The tournament was not very good !
Hotels problems, transport problems !
Too much loose of time before the start of the team events !
Cosimo, go back very soon to BIBIONE where you have the possibility to use one very good accommodation, where you know everybody and where you can find a lot of help from the Municipality !**
