Evaluation : We played the tournament on 9 playing tables in the tennis hall. The hall wasn't too fit for the IPTTC tournament in August, therefore no some air condation was there. In the hall was very high temperature, bad for the play. Some next tournament there will be possible in Spring or the Autumn time only.

For the accommodation will be necessary to make contracts with the choice hotels directly. The participants pay the same Entry fee, they have to get the accommodation in very similar level only.

The drinking programme was very good. All of the participants had possibility to take mineral water (cooled or in the normal temperature) where necessary.

The Medical service was perfect – first time I sow, the ambulance was the whole time by the hall!
