Competition started around 9 am and finished around 8 pm first day, 9.30 am to 7 pm second and 9.30 to 13.00 third day. The timetable was a little short of time but there were only minor problems because of the small low quantity of participants.

Meetings: A technical meeting was held in the evening of arrival day and included some words from the organizers. The open event draw was handmade by referee in presence of TD. The schedule of the open was given to the teams during the meeting. It was very long.

Press: There were a coverage by local TV with some interviews.

Opening Ceremony: No opening ceremony was organized.

Education Program: No EDP was held.

Classifications: 1 classifiers were present
4 players were tested.
Very good and profesional classifications!
2 classifiers were appointed at the beginning but the OC asked for an exception to have only one because of the low quantity of player to be tested

Results: All results book was given to each Nation on Saturday evening.
All electronically results were sent to the Ranking Director during following week.

Referee: Mr. Elio Corrado – ITA
Umpires: 15 from ITA

Organizing Committee: Director Tecnico: Prof. Matteo Quarantelli
Organization Responsible: Mr. Renato Di Napoli

IPC / IPTTC Taxes: The OC sent the participant report form during competition and IPC Headquarters sent me a confirmation of the receipt.

Evaluation: **Accommodations:** Good level but not 4 stars as announced, the food there incredible good.

Transport: Very good from and to Torino Airport and from and to venue.

Venue: Perfect!

Tables: Very Good!

Umpires: Some with very good level and some with good enough. But they worked very hard!

Ball People: There were some for the lower classes players.

Competitions: Good organisation. But must be improved for a bigger tournament next time.

Information: The information was distributed not so oft, it has to be planned next time. A computer person is necessary!

Computer: The referee made most of that job

Org. Committee: The people worked very professionally and they tried always to find quick solutions. Good Cooperation!

Conclusion: *In General, the tournament was organised with very good quality, only the technical part can be much better but it was not a big problem because of the quantity of players. I think next time will be better and it was very very good being the first experience. I have enjoyed very much to work there with the Torino Open OC.*

For next edition:

- 1. You need a computer person***
- 2. Distribute more information to the delegations***

I think this four issues can be easily changed for next edition!

Good luck with next edition!
