

REGIONAL CHAMPIONSHIPS 2007

1 Single events

All Regional Championships must use the same single events format as the Paralympic Games.

Number of players allowed per class :

maximum 3 players in one single class

maximum 4 players when 2 classes are combined

maximum 5 players when 3 classes are combined

If for any reason, a Regional Championship will use another format of events and will combine other classes, the Main TD of that Regional Championship must get approval

from the Selection Officer.

In that case, only the Gold winner in the combined class may be selected in his own class.

Final decisions about combination of classes will be taken by the IPTTC Selection Officer.

2 Team events

Number of players allowed per team :

maximum 4 players

As the Gold Winners from the team events will not be selected for the Paralympic Games, more flexibility will be allowed in the team events organization.

3 Open events

All the players entered in single and/or in team events may play in the open events.
