**In conclusion :**

EC of ITTF PTT endorsed T D Inspection in Wuppertal, which had to judge if condition for German Open 2008 were really changed compared to last German Open 2007.

Why?

The German Open 2007 wasnt organized well. Durring the tournament, mainly wheelchairs, had a lot of problems, but problems were directly in the playing hall too . The main Organizer was in the same time one of the players and couldnt solve problems continiously. OC was too small´ transport wasnt well organized.

**The result of my TD Inspection now:**

During the TD inspection, Jochen Wollmert + much bigger and better OC, informed me what they already prepared for the German Open 2008, up to this time :

1. despatched most of the problems during German Open 2007
2. changed the Venue
3. will use only two good bigger hotels for all of participants and officials
4. new transport officer will have much bigger number of buses
5. wont be problem with the places in the rooms for Farewell Party in Novotel + wont be problem with transport during the farewell Party and after its end to hotel Golden Tulipe.
6. they will prepare volunteers , like the helpers of wheelchairs, where and when it could be necessary
7. Every day will be in hall enough number of ballchildren + their organizer
8. Jochen Wolmert will be only Director of the tournament and wont player there too.

**I am sure, the level of the German Open 2008 will corresponding with the other good ITTF PTT tournaments Fa 20.**
