Information: Good, on the information board and by the help of pigeon-holes.

Referee : very good and professional work

Deputy referees : very good and professional work

Umpires: 31 umpires from three countries were very good team, without

- Computer:** the problems and works very well, without some protests. Only one man, working very hardly and excellent way, but for the next Polish Open I recommended to give him one good helper with the second computer, to have possibility to make the running resource of the data. Computerman was very good professional.
- Ball boys:** The soldier which were there as ballboys, understand table tennis and problems of the wheelchairs, therefore they were very good ballboys and helpers of them. Their group was very well organized.
- Organization :** Composedly, very friendly and always in the time. It is possible to tell, the whole organization was very good.
- Chemical toilets:** Four TOI TOI toilets were prepared before the playing hall. They were cleaned continuously and regularly were every day changed their chemical contents. No problems with them.
- Org. Committee:** In OC is written enough number of the persons, but nevertheless I proposed for the next Polish Open to complete OC still with some next persons, which will help Magdalena Grzesik in OC office, during the whole tournament, therefore Barbara Stachowska has in office different and also important job there. For example : with the economical part of the administration, with the organization of the transport and with the accommodation.
To my mind, it is too big job for one person only!
- Volunteers:** Good team and very helpful.

I would like to congratulate to the whole Organizing Committee, referees, umpires, volunteers , and soldiers, for the very good organized Polish Open 2009.
