## Classification report

### 1. Facility for classification

Located in the same building as competition venue. Two TT tables, tables and chairs for administration proces and two separated massage tables for medical examination in privacy. Classification was done according the prepared schedule, and because of accomodation in neibor building without waiting and confusion.

The only disadvantage was surface for testing TT and mobility activity, not like for competition, but carpet.

### 2. Classification process

According to PCF we classified **37 players**. From this number **21 new /PD/, 4 reviews,** and **12 ID** atheetes.

After observation during tournament **3 classes** of new players were changed with effect from the next tournament, including **1 as NE**. The names are : **Koyama, Saini, Makkar**.

Several players were left under review in 2 years.

**From 4 reviews in 3 athletes was class changed, in 1 not.**

**Completed PCF is already with final classes.**

### 3. General observation process

During single and team event we did general observation af all participants. We did not find any really wrong classes necessary for review. One home player with confusion in classification /**Chui Lim Ming-USA**/, having no classification card here, was checked, and his class confirmed. Copy of new ICC added.

### 4. Others

Cooperation with organisers and tournament officials was very good.
